

Partnership Offer from Car Accessories Manufacturer

Since 2002, **NataNiko** Company has been a manufacturer of door sills scuff plates, interior door sills scuff plates, rear bumper scuff plates and rear bumper scuff plates with folded edge made of stainless steel, as well as 3D carbon fiber film stickers for door sills and rear bumper.

The quality of manufactured products is guaranteed only by the best materials — high alloy stainless steel and tape 3M VHB (USA) and Lohmann (Germany).

We are pleased to offer you three types of products: «**Individual(Standart)**», «**Premium**», «**Elite**».

Products of «Individual(Standart)» Class (Door Sills Scuff Plates) are a product line distinguished itself by high quality at democratic price and give a unique outside appearance and usability.

Products of «Premium» Class (Door Sills Scuff Plates, Interior Door Sills Scuff Plates, Rear Bumper Scuff Plates, Rear Bumper Scuff Plates with Folded Edge) feature an exclusive outside appearance and unique design. They attract our clients by their protective function during passengers loading and unloading, also as tuning element.

Products of «Elite» Class (Door Sills Scuff Plates, Rear Bumper Scuff Plates with Folded Edge «**DOUBLE**») are made of Italian precoated stainless steel with unique design.

3D Carbon Fiber Film Stickers for door sills and rear bumper are designed for paint protection and make your car look exclusive.

We supply our products to many car dealers, online shops and car tuning shops from the CIS countries, Europe, the USA, Canada and Israel. Our company is a permanent member of SIA International Motor Show – the products shown in the exhibitions are recognized as the best ones for car tuning and have been often awarded high quality diplomas. In 2010 NataNiko Company won a prize and a diploma of TOP 9 best companies of the field. All products have an array of patents and certificates issued by the Ministry of Economic Development and by the Standardization Technical Committee.

We are the only company representing for our partners more than thousand of photos with goods codes for the products visualization. Our company has the biggest finished products warehouse. We provide product samples with stand free of charge.
